AHMED HAMDI

FULL-STACK DEVELOPER

linkedin.com/in/ahmed-hamdi
github.com/ahmed-hamdi-z

SUMMARY

Results-driven Full-Stack Developer with over 4 years of experience specializing in Node.js, Nest.js, Next.js, and React. Skilled in architecting scalable backends with MongoDB/SQL databases, containerizing environments via Docker, and deploying secure Linux/AWS infrastructures. Proven track record of building high-performance web applications, responsive localized interfaces, and optimized server deployments for client platforms.

SKILLS

Technical Skills:

Languages: Typescript | JavaScript | Bash | HTML5 | CSS3 | SASS
Front-End: Next.JS | React.JS | Tailwind CSS | Framer Motion | DOM | Bootstrap | Three.JS | GSAP | Lenis
Back-End: Node.JS | Express.JS | Nest.JS | Bun.JS | Docker | AWS
Database: MongoDB | PostgreSQL | MYSQL
CS Knowledge: OOP | SOLID | Design Patterns
Version Control: Git | GitHub
Soft Skills: Time Management | Communication | Presentation

EXPERIENCE

Full-Stack Developer. (Remote) - KSA

Mar. 2023 – Present

Click Agency.

- Develop clean-coded front-end applications with React.js and Tailwind CSS from Figma Design for companies in KSA.
- Building scalable back-end applications using Nest.js (Node.js/Express.js).
- Designed optimized MongoDB and PostgreSQL data models and database structures
- Improved deployment workflows by using monorepo architecture and Docker configuration.
- Deployed the full-stack applications on Linux server, configuring reverse proxies using Nginx and TLS certificates
- Develop scalable organized back-end applications using Node.js, Nest.js and MongoDB.
- Deploying the apps on AWS servers by configuring its Linux Instance, S3 Bucket and Database or on a normal hosting service.

Projects:

Name/URL: dream.com.sa Name/URL: hayyacom.com Name/URL: alaadental.com Name/URL: healthypets.com.sa

Tools/Techs: **Frontend**: Next.JS, React, Tailwind CSS, Framer Motion and Localization
Backend: TypeScript, Express.JS, Nest.JS, MongoDB and PostgreSQL

Full-Stack Developer. (Freelance)

URL: zahw.sa

Sep. 2025 – Nov. 2025

- Built web app using Next.js and Tailwind CSS implementing a responsive, high-performance UI
- Maintained a secure and scalable Node.js/Express backend, and API integrations.
- Set up and optimized a MongoDB database and secured its ports on a VPS.
- Configured domain, DNS records and HTTPS using Cloudflare ensuring fast, secure access
- Deployed the full-stack application on Ubuntu server, configuring reverse proxies using Nginx and TLS certificates.

Front-End Developer. (Freelance)

URL: daralnawati.sa/

Oct. 2022 – Dec. 2022

-Tools/Techs: Next.JS, Tailwind CSS, Swiper, Resend, Nodemailer, Zod, TypeScript

- Developed and deployed a web application, managing domain configuration, DNS via Cloudflare

EDUCATION

Bachelor's degree of Software Engineering.
Faculty of Computer and Information Sciences

Mansoura University - 2021
